3. Collaboration

the collaboration shall include but not limited to,

- Ensuring support for cares and families (social protection)
- Identification/allocation of resources for palliative care
- Identifying indicators and establishing monitoring of palliative care
- Identify patients who could benefit from palliative care;
- Assess and reassess patients for physical, emotional, social and spiritual distress and (re)assess family members for emotional, social, or spiritual distress;
- Relieve pain and other distressing physical symptoms;
- Clarify the patient's values and determine culturally appropriate goals of care.
- Individualized, patient-centred care
- Symptomatic non-pharmacological treatment developing an individualized home-based care plan for each patient;
- In some cases, providing treatments and instructing the family in this task;
- Facilitating access to supplies and medicines;
- Visiting the patient's home according to a regular schedule in order to anticipate problems and if possible prevent them; reporting problems to a higher level and providing follow-up;
- Training the patient and family in care and comfort-giving procedures and checking that they are being carried out;
- Based on the assessments, paying particular attention to ensure the availability of treatment, including for pain management.
- Answering questions, providing information and keeping records;
- encouraging the family to keep the patient involved in their daily life as much as possible;
- Helping/supporting/guiding the family in nursing care and care of bedridden patients.
- Supply medicines to the patient or caregivers for use either immediately or when needed;
- Advise and educate the patients, families and community carers on how to prevent and manage common problems such as contractures and bedsores;
